HOTPOINT-HEDLITE GLOW HEATER

Clean and concentrated heat, when and where you want it, is ideally supplied by the Hotpoint-Hedlite automatic heater. It is especially adapted for warming small rooms, bathrooms, etc., and for drying hair after a shampoo. Should the heater be accidentally upset, the automatic gravity switch breaks the current and closes the circuit again when the heater is righted.

HOTPOINT GRECIAN URN PERCOLATOR SET

Very desirable for use in large families, on social occasions or for gift purposes. It is constructed throughout of copper and finished in polished nickel plate. Tray, Sugar Bowl and Creamer are of copper, heavily nickel-plated and polished. Sugar Bowl and Creamer are silver lined.

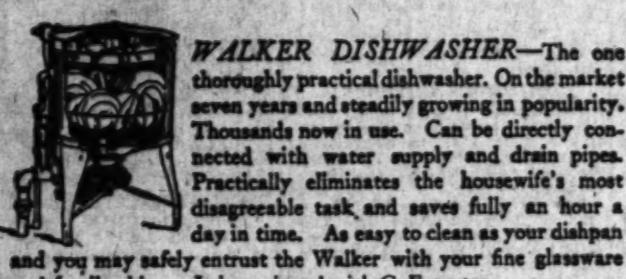

HOT POINT ELECTRIC TOASTER

Toasts two slices at one time, quickly, evenly. Coffee, tea or cereal may be kept hot on top of toaster at the same time bread is toasting. When desired toast rack may be fitted to the top of toaster, providing a handy receptacle for passing toast. Rack has honed handle which always remains cool. The Hot Point Toaster is guaranteed for one year by the Edison Electric Appliance Company.

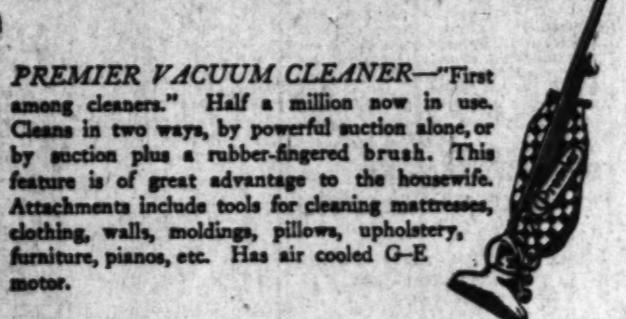

G-E TUMBLER SWITCHES

The G-E tumbler switch is the latest device for controlling circuits, and stands up better than any other device made for a similar purpose. It is self-indicating—up it's on, down and it's off. It can be operated with the arm or elbow should the hands be full and is supplied in both flush and surface types.

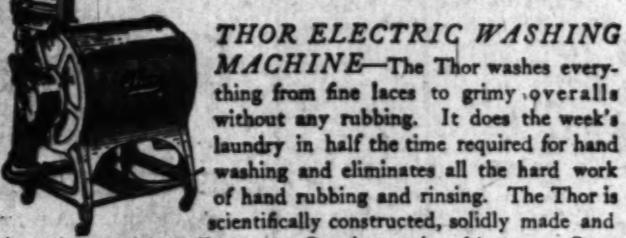

WALKER DISHWASHER

The one thoroughly practical dishwasher. On the market seven years and steadily growing in popularity. Thousands now in use. Can be directly connected with water supply and drain pipe. Practically eliminates the housewife's most disagreeable task and saves fully an hour a day in time. As easy to clean as your dishpan and you may safely entrust the Walker with your fine glassware and fragile china. It is equipped with G-E motor.

PREMIER VACUUM CLEANER

"First among cleaners." Half a million now in use. Cleans in two ways, by powerful suction alone, or by suction plus a rubber-fingered brush. This feature is of great advantage to the housewife. Attachments include tools for cleaning mattresses, clothing, walls, moldings, pillows, upholstery, furniture, pianos, etc. Has air cooled G-E motor.

THOR ELECTRIC WASHING MACHINE

The Thor washes everything from fine lace to grimy overalls without any rubbing. It does the week's laundry in half the time required for hand washing and eliminates all the hard work of hand rubbing and rinsing. The Thor is scientifically constructed, solidly made and is equipped with G-E motor. On the market 14 years. Over 750,000 now in use.

Everything Remembered

—everything right, when the qualified electrical contractor does the work—

The qualified electrical contractor leaves no loose ends—no missing outlets, no faulty workmanship. His bid is seldom more than one-half of one per cent (\$50.00 on a \$10,000.00 house) over that of the irresponsible, casual contractor. And if you employ sub-standard service you are quite likely to pay more than five times that difference in replacing the inferior workmanship and sub-standard materials which made the lower bid possible.

For the protection of the electrical consumer, the Pacific States Electric Company, the largest distributor of electrical merchandise on the Pacific Coast, has marked its products with the "check" seal of quality. Some of these standard electrical materials and appliances are shown on this page; others will appear in later advertisements of this series. They are distributed through electrical contractors and dealers of demonstrated competence and responsibility.

Hence, the blue and orange "check" seal is a helpful guide both to quality in electrical materials and appliances and reliability in contracting service.

The electrical appliances shown on this page, together with other standard electrical products, certified by the "check" seal, are described in our new booklet, "The Electrical How for Householders". You will enjoy this booklet, with its many practical suggestions for the convenient and economical utilization of electricity in your home. It may be obtained free from any electrical contractor or dealer displaying this seal.

THE NEW HOT POINT WAFFLE IRONER

Does the average family ironing in about one-fifth the time it takes to do it by hand—and does it better. It handles everything from household linen to lingerie and costs about 5 cents an hour to operate. Has an automatic control and is equipped with G-E motor.

means to delicious waffles, prepared electrically, without smoke or bother—right at the table. Equipped with double aluminum plates baking entire waffle at one time without "flipping." Heating units are enclosed, sheet wire type. Convenient handles, hinges, etc., insure ease of operation and cleaning.

DAILY TRADE TALK

**New Slant on the Oil Situation; Union Pacific
Statement**

BY CHAPIN HALL

A month ago we were hearing
a lot and reading more about the
overproduction of oil. A couple of
years ago a gasohol shortage was
foisted upon the public finally
to be broken by the spectacular
appearance from off the desert of a
great bedrock train of tank
cars, each with Texas oil in them.
There is a lot of propaganda in
the oil business, and it isn't always
confined to the stock, lease
and unit promoters.

From which it appears that
there is just a possibility that the
near-panic induced by the recent
action of the market will again
overrule. In any event the Calif-
ornia situation is apparently con-
siderably improved. There has
been a marked increase in oil
production, and especially in the
new Southern California fields
in Signal Hill, Santa Fe and
Huntington Beach. The oil
market is going forward
even more intensively than
before. A visit to these teeming
oil fields brings to mind the
fact that the industry is seriously
concerned because of an over-
production.

Carry seaward, one may lamp
with trusty binoculars, tankers from
the four corners heading toward
Los Angeles Harbor, and because
of the oil men assert that we are
by way of becoming the largest
oil-exporting port in the world.
The Signal Hill, Santa Fe and
Huntington Beach oil market is
now quite worrying about over-
production.

FIELD ACTIVITY

At Long Beach a number of new
wells are going up, number on
the count for one season and it is
quite well for one or more new
wells are not brought in. There
seems as much activity as there
was in 1915, as there has been at any
time.

A current report says that the
shopmen's strike has been
broken in three weeks, and the
Nicholson No. 1, a 2500-barrel well
2400 barrels of 24° gravity.

Petroleum Midway during the
same period brought in a 2600-
barrel well with 28° gravity oil.
and has seven wells in the same
well with three wells which
will be in soon. The General
Petroleum with three wells about
ready to bring in should add
seven more, though it is not
known when.

Union Pacific's net operating
income for the first seven months
of 1916 was 1.3 per cent larger
than in the same period last year.
This movement shows up very quickly
in the earnings statements. How-
ever, in spite of this, the regular
operating expenses for the year
provided for in the shopmen's
strike does not interfere with having
adequate equipment for moving
the oil here, crop and cost
expected later in the fall.

Given in actual figures and
percentage of strike dam-
age to Union Pacific's income
as follows: Net operating
income for the first seven months
of 1916 was 1.3 per cent larger
than in the same period last year.
This movement shows up very quickly
in the earnings statements. How-
ever, in spite of this, the regular
operating expenses for the year
provided for in the shopmen's
strike does not interfere with having
adequate equipment for moving
the oil here, crop and cost
expected later in the fall.

If equipment had been main-
tained as the shop strike had
been, the seven month period would have
fallen 6% per cent below 1915.

This equipment maintenance
done naturally be made
available for the year, pro-
vided the shopmen's strike does not interfere
with having adequate equipment
for moving the oil here, crop and cost
expected later in the fall.

Grain Prices Hold Firm at Fixed Level

OIL SHARES IN MARKET SLUMP

Companies Exploiting Mexico Suffer Declines

Professional Speculation in Day's Trading

German Marks Struggle Up From Lowest Depths

BY ALEXANDER DANA NOTES

(EXCLUSIVE DISPATCH) NEW YORK, Sept. 6.—How far today's decline on the stock exchange represented the realizing sales which usually accompany a favorable outcome to a long period of uncertainty, such as the recent labor controversy had created, and how far a change of attitude by speculators in particular stocks, it might be difficult to say. But the part which professional speculators have had in the recent decline in oil shares was certainly shown by the violent decline in shares of oil producing companies that have been expiring since the recent statement published in an organ of the oil trade, that companies which have invested in that field are unlikely to get them back again. This again, was little more than reiteration of other and frequent statements made by one group of authorities, but it did leave another and always leaving the ordinary investor's mind in complete obscurity on the matter.

It hardly needs to be said that this is the familiar experience of a market which speculates on such always uncertain prospects. The market, too, has been quiet today, and downward movement would have occurred in any case, even if not with today's points of special emphasis. The market, however, is lower, and numerous stocks of industrial companies in other fields than oil production had reached a point or more below their recent

FOREIGN EXCHANGE

While most of the foreign exchange rates hardly moved, the German mark struggled up to the highest figure in a week. This was due to the market's favorable response to the Stinnes plan of developing building materials for reconstruction under the auspices of the German government, but on the basis of government that by the German government. This is in substance the proposal which was made by the German reparations commission and which has hardly received consideration, the compromising of Belgium's case requirements, which were wholly superseded it. The plan for "reconstruction in kind" on a basis, not of casual purchases by the government, but as a formal business contract, clearly has some advantages which must appeal to France. It would at least insure reconstruction work without forcing France itself more deeply into an unoccupied debt.

STOCK TICKER
During the week ended September 1, stocks of oil companies in the market declined in value, with the result that the market price of oil stocks, including stocks of oil companies, declined to \$120 per barrel, down from \$125 per barrel on October 10, 1921.

Oil stocks of oil companies, including stocks of oil companies, declined to \$120 per barrel, down from \$125 per barrel on October 10, 1921.

CAPTAIN IN TEDDY BEAR IS RESCUED

Arctic Schooner and Crew Frozen in Ice Through Long Winter

Capt. Joe Bernard and his Teddy Bear (a schooner, if you please) have again come through safely another perilous quest into the frozen wastes of the far north, according to word received here yesterday by D. H. Hurley, the city editor.

The doughty captain, who knows about as much about Alaska and its northern environs as any man in the world, was last summer, in 1921, on an exploration cruise of Coronation Gulf and Victoria Land. With him was a crew of hardy sailors who had seen service in that "neck of the woods" at various times. So had he come, and each time he had come, as it were.

A rough element hangs out around the Siberian coast, and Capt. Bernard and the Teddy Bear got tangled up in it on several occasions. The result was that he froze in several times, and finally had to lay to for the winter. His crew, however, was safe.

Last June, as no word had been received from the Teddy Bear for weeks, the Revenue Cutters began searching for her. It took two months of roaming around the Arctic circle to locate her, but the deed was done, and the Teddy Bear is now home.

This is the empty-ump instant Capt. Joe has beaten the northland out of its prey-ming him-ped, and the Bear, and the crew, but with each successive "rescue," the captain's appetite for another set to increases. Consequently, he's preparing to start back again, "he said."

Drinkers Turn From Beer and Wine to Pastry

BY A. NIGHT WIRE
NEW YORK, Sept. 6.—Prohibition has forced Mt. Sinai Hospital to abandon a new treatment for diabetics. It was announced today by the Federation of Jewish Philanthropies. The withdrawal of alcohol drinks, the treatment quoted Dr. Emanuel Bonhoffer as saying, has caused people to turn to sweets as a substitute and has caused an enormous increase in diabetes.

"This is the new man," Dr. Bonhoffer said, "and his craving for sweets is intensified. And I am quite willing to be quoted as saying that the new man has harmed more physically by patronizing a French pastry shop than he ever was by going into a saloon and getting a glass of beer or light wine."

BAKERS TO CHANGE NAME
(EXCLUSIVE DISPATCH)
WASHINGTON, Sept. 6.—The office of the Comptroller of the Currency of the Treasury has received a request from the First National Bank of Fort Bragg to change its title to the Coast National Bank of Fort Bragg.

SON SLAYS HIS FATHER; SURRENDERS

Discharge of Stenographer is Believed to Have Led to Fatal Quarrel

BY A. NIGHT WIRE
KANSAS CITY, Mo., Sept. 6.—Roy B. Garvey shot and killed his father, J. W. Garvey, today as the latter sat at his desk in an insurance office operated by the two in a downtown building here. Garvey then walked to police headquarters and surrendered.

"My father and I were in business together," Garvey told the police. "I have come through safely another perilous quest into the frozen wastes of the far north, according to word received here yesterday by D. H. Hurley, the city editor.

The doughty captain, who knows about as much about Alaska and its northern environs as any man in the world, was last summer, in 1921, on an exploration cruise of Coronation Gulf and Victoria Land.

With him was a crew of hardy sailors who had seen service in that "neck of the woods" at various times. So had he come, and each time he had come, as it were.

A rough element hangs out around the Siberian coast, and Capt. Bernard and the Teddy Bear got tangled up in it on several occasions. The result was that he froze in several times, and finally had to lay to for the winter. His crew, however, was safe.

Last June, as no word had been received from the Teddy Bear for weeks, the Revenue Cutters began searching for her. It took two months of roaming around the Arctic circle to locate her, but the deed was done, and the Teddy Bear is now home.

This is the empty-ump instant Capt. Joe has beaten the northland out of its prey-ming him-ped, and the Bear, and the crew, but with each successive "rescue," the captain's appetite for another set to increases. Consequently, he's preparing to start back again, "he said."

NEBRASKA BANKER ACCUSED OF THEFT

BY A. NIGHT WIRE
LINCOLN (Neb.) Sept. 6.—The Farmers' State Bank of Benedict, in York county, was ordered closed today by the State Department of Trade and Commerce following the arrest of Floyd R. Ward, vice-president and general manager. The bank is in charge of State Banker J. M. Miller, who said that the loan may reach \$50,000.

Eighty-six Cement Manufacturers Unite to Serve You

The Portland Cement Association means this: that valuable scientific, advisory and educational work which no one cement manufacturer could reasonably undertake alone is at your disposal. This means that you can be absolutely sure of yourself in using Concrete.

You can be sure in the first place of the cement you buy. Any manufacturer of Portland cement may join the Association, and no manufacturer has to belong to it. But Association By-Laws require that members' products shall measure up to the high standard of specifications of the United States Government and the American Society for Testing Materials. Cement bought from a member of the Association is therefore dependable.

You can be equally sure of the way to use it. If you want information about its usefulness under certain conditions, or about how to mix it or place it to get the best results most economically, you can get it from any one of our 24 offices, one of which is near you.

Supplying dependable information without charge, by booklet, or by personal correspondence or by conference when necessary, is the work of the Association. To supply it authoritatively, the Association maintains a large research laboratory and a staff of more than two hundred engineers.

The Association is, in effect, the joint research and educational foundation of 86 manufacturers of cement in the United States, Canada, Mexico, Cuba and South America. You are invited to use it freely.

Suggestions as to how our work may be made more useful to you are invited.

MRS. THEODORE THOMAS AT KHJ

Founder of Federated Music Clubs Broadcasts

Notables in Music World Heard at Noon

Soprano, Tenor and Pianist Give Night Concert

The name "Theodore Thomas" has meant symphony orchestra and music for many years, since it was Theodore Thomas, who founded the symphony orchestra of Boston, who is in Los Angeles to-day as a guest of the National Federation of Music Clubs, which she founded, broadcast greeting to the federation from KHJ. She was the only station from which she was heard while here and was a novel experience for her among many she has had recently, chief of which are airplane radio.

The message which I wish to broadcast into the free air of this wonderful studio, said Mrs. Thomas, "is one of sincere and grateful thanks for all the kindness and the honors which have been showered upon me by Los Angeles and Southern California during my brief sojourn on the Pacific Coast.

"I have found here so genuine and widespread a love for music and for those who play the more dangerous of music, who have the artistic guidance of Los Angeles in their hands, have only to continue their good work upon the

GOLDEN STATE BUTTER

Quality in butter is easily claimed—but the proof of quality is in the score. The average butter in California markets barely scores 90 points—but Uncle Sam demands that Navy butter score 94 to 95 points. This scoring is the equivalent of butter perfection—flavor—body texture—uniformity—purity—must be flawless—for the Navy Department requires the best in provisioning the fleet for the long cruises in tropical seas.

We have served Uncle Sam's ships with more than five million pounds of Golden State butter since 1915—a record not surpassed by any manufacturer in America.

Ask your grocer for Golden State—you will find Navy quality in every carton of this delicious butter—now ready in dainty quarters—four to the pound—their purity safeguarded by the new Golden State wrapping invention which frees this product from the touch of human hands.

UNFORTUNATES ARE HONORED

Pageant of Progress Taking
Care of Orphans

Disabled Soldiers Visit
Huge Exposition

Special Fireworks Offered to
Welcome Guests

The Pageant of Progress at Exposition Park will be the playground of hundreds of orphans, kiddies, disabled soldiers and members of various institutions, who will be the guests of the Chamber of Commerce and John S. Berger, manager of the pageant. Everything is to be free to them and they will be personally conducted through the grounds and special performances provided for their benefit by representatives of the Chamber of Commerce and members of Berger's staff.

The unfortunate ones are to be heavily loaded with souvenirs and samples of various exhibits were stocked up in anticipation of the event. A committee headed by F. M. Sandusky and John Kelly Pool will meet the guests at the north gate of the exposition grounds.

PICTURES PRODUCED
Last night the Motion Picture Producers staged a spectacular demonstration of motion-picture making with Betty Compson, Anna Q. Nilsson, Marie Prevost, Bert Lytell and Kenneth Harlan under the direction of Roy Clemente. In the afternoon Louise Fazenda, former Senette comedy queen, demonstrated the evolution of comedy films.

A delegation of 150 boosters for the Los Angeles County Fair to be held at Pomona was entertained by M. Gore, exploitation chief. Invading Exposition Park last night shortly after the close of the pageant were Mexican bandit leaders with gaily colored bands telling their mission in being there.

CALIFORNIA DAY
Friday is to be California and Chamber of Commerce Day with secretaries from various near-by chambers in attendance, and visitors coming from all over the State.

A special fireworks display was staged by Charles Duffield, superintendent of pyrotechnics, will be an illuminated replica of Huckleberry Finn at the old fishing hole.

Saturday, Admission Day, is to be consecrated to the Native Sons of the Golden West, with Sheriff Traeger as master of ceremonies and Rex B. Goodwin, collector of external revenue, as principal orator.

Man Injured
in Automobile
Accident, Dies

George F. Harris, aged 36 years, 1134½ Magnolia street, who was injured in a collision with two automobiles at the intersection of West Sixteenth street and Western avenue Sunday, died late yesterday at the Westlake Hospital, according to a report made by Detectives S. C. Carter.

Mr. Harris was riding with his wife, Hale Harris, aged 28 years, 1134½ Magnolia street, and the latter's wife in his father's car when it collided with a car driven by O. A. Kyger of 2081 East Hillhurst place. Kyger was arrested on charge ofreckless driving and later released on \$250 bail.

An inquest will be held at the Huntley Hotel, Pasadena, the establishment tomorrow at 8:30 p.m. The son was the only person seriously hurt in the accident.

MODERN PLANT FOR
CROWN CITY DAIRY

PURCHASE OF PASADENA SITE
ANNOUNCED; CONTRACT
FOR BUILDING LET

A. C. Blumthal & Co., yesterday announced the purchase of a lot at the corner of Stephenson avenue and East Colorado street, Pasadena, from Eugene Wood. The property 100 by 175 feet will be improved immediately with a modern building to be occupied by the Crown City Dairy Company, which has had a one-year lease on the structure at a rental of \$250,000. The contract for the building has already been let to D. A. and Max Marcus, who have engaged in business for several years in Pasadena. Equipment to be installed by the lessees will cost about \$50,000. The Littison Company represented the purchasers.

This will be the first building of its kind to be erected in Pasadena. It will be devoted to the pasteurizing and purifying of milk and the manufacture of dairy products. The Crown City Dairy Company, owned by D. A. and Max Marcus, has engaged in business for several years in Pasadena. Equipment to be installed by the lessees will cost about \$50,000. The Littison Company represented the purchasers.

LONE PEDESTRIAN
UNGRATEFUL THIEF

GIVEN LEPT BY AUTO OWNER,
HE STEALS MACHINE;
POLICE TOLD

"Never again" declared W. H. Oden, 515 Fountain avenue, Hollywood, early yesterday morning after tramping almost three miles to report the theft of his car by a bandit whom he had picked up at Third and Western avenue to give a friendly lift. According to the statement of Sgt. R. E. Gandy of the Hollywood police, Oden was traveling north on Western avenue when he was flagged by a pedestrian who requested a ride. Oden slowed down and the man hopped on.

After riding several blocks the wary traveler pulled a gun and informed the bandit that he was going to San Francisco and was in a hurry. The stick-up man then forced his unwilling chauffeur to drive him out over Cahuenga Pass, through Valley and then back to the foot of Cahuenga Pass, where he ordered him to leave the machine.

local news published here within.

THE RIGHT WORDS
An intelligent and competent person
at broadcasting for the radio now becomes
a Class A diffusionist. Broadcasting was
an established word, but it found itself
awake when the radio came in. It seems to
fit like the skin of a melon.

NO NEED FOR IT
The unions are gathering money for
the women and children suffering because
of the strikes. Why don't the labor bosses
let the men work for it? Most of the
strikers had no grievance. There is no
warrant or excuse for suffering. The unions
must accept responsibility for such suffer-
ing as exists.

INSIDE OUTSIDE
America may not belong to the League
of Nations, but it furnishes the largest
representation. At the opening of the third
Assembly of the League on Monday seven-
ty Americans were present in various ca-
pacities. This was the largest delegation
from any one country. This is what the
other fifty-seven nations cannot understand.
We insist on staying on the outside and
yet furnish the inside interest and attend-
ance.

RENT IN PIECES
According to advices rents are the
cheapest thing in Austria. They were fixed
by law before the value of the nation's
money dropped to the bottom. Now the
landlord of many an apartment-house is
lucky if he gets the equivalent of a \$10
gold piece for a year's rental. There is no
building at all. One man in Vienna is
glad to work as a waiter in a hotel of
which he is the owner so far as the build-
ing is concerned.

RIGHTS FORFEITED
Some of the unions are making pro-
test that the taking away of seniority
rights penalizes strikers. Why not? Sen-
iority rights appertain to continued and
faithful service. A man who throws down
his tools when the employer most needs
him and then tries to shanghai the man
who is willing to work can hardly expect
any medals or decorations for fidelity and
industry. No jury in the world would
restore seniority rights to a striker on the
evidence of the case.

MATTER OF RELATIVITY
It is reported that the Einstein the-
ory of relativity is to be interpreted on the
screen and that six professors are now at
work on the proper scenario. That is all
very well to talk about, but, unless the Ein-
stein theory can be played by the Key-
stone police or embellished by a comedian
with a funny derby hat, it will never make
much of a hit at the box office. The only
way the Einstein theory can make a hit
on Main street is to use it as a come-back
for Fatty Arbuckle. Down that way they
think Einstein is a pawpaw.

THE MIGHTY ATOM
G. K. Chesterton must have been wal-
lowing in experience. He has just offered
the world this awful profundity:

"Anyone who makes himself responsible
for a small baby, as a whole, will soon
find that he is wrestling with gigantic
angels and demons."

That "a whole" would seem to point
to the fact that Gilbert has been walking
the floor at nights of late.

We haven't heard from Sir Conan Doyle
directly on the subject, but his prognostica-
tions certainly held that all men would
be 30 and all women beautiful—and, under
the circumstances, we can't help feeling
that the men are going to need the sooth-
ing influence of a quiet smoke once in a
way.

BIRTH OF UNIVERSE
The pessimist is likely to be a person
who holds closely to the nebular hypo-
thesis. He thinks that the universe is grow-
ing colder; is wearing out and drying up.
In a few million years we will all be dead
—frozen stiff, b'gus! The optimist will
turn cheerfully from the argument of
Pierre Simon Laplace to the more exhilar-
ating planetesimal theory of Prof. Thomas
Crowder Chamberlin. This is better en-
tertainment. Dr. Chamberlin does not in-
vite us into a wet-cut and wasted world.
He holds that the solar system and the
earth were born of the coming together of
cold molecules of matter and are not the
products of the cooling of white-hot gases.
The cold molecules are warming as the
sun. Instead of dying out, therefore, does more
make a record flight across the American
continent. He has brought prom-
inately to the nation the great question
of an adequate air force. One plane has
successfully spanned the continent at a
speed of 100 miles an hour. A thousand
planes may do likewise. America can
train more flyers of the Doolittle type and
build more airplanes of the De Havilland
model.

In peace or in war such aviators and
such machines are essential to the future
of America. The cost of one scrapped bat-
talion will do wonders, scientifically ap-
plied, in the cause of national airmanship.
The military and the commercial interests
of the country are equally benefited by
such achievements as that of Lieut. Doolittle.
It is claimed that the sun is shrinking at
the rate of ten miles every century. But
that does not worry Dr. Chamberlin. We
will always have sunshine enough to go
round and outside of the occasional out-
breaks of the Democrats, this isn't such
a bad old world, after all. Leave it to the
optimistic professor if it isn't so.

THE GREEK DEBACLE
The Turks have turned on the Greeks
in Asia Minor and administered a crushing
defeat. According to cables from neu-
tral observers, not only has the Greco-
nian offensive been broken, but the Greek
armies are in headlong retreat, abandoning
the Christian populations of the territory
they have occupied for the last seven
months to the victorious Turks.

The Turkish Nationalists under Mus-
tapha Kemal are waging what they term
a holy war. The object of such a conflict
is the extermination of the unbelievers.
The Turks make war alike on governments
and peoples. For them there are no
nominations. When they occupy a territory
in which a part of the population are
Christians they proceed forthwith to put
the Christians to the sword—for it is written
in the Koran that the unbelievers must
perish.

Wild appeals are going to the Allied
governments from the Christian populations
of Asia Minor for succor. About
half the residents of Smyrna are Christians.
If the Turks enter the men will be
murdered and the women enslaved. Kemal
and his Moslem hordes show no quarter;
and Kemal demands the return of Con-
stantinople and adjacent territory to Tur-
key, as the price of sheathing the sword.

Division among the Allies has lent en-
couragement to the Turks. Until the
World War the French and Moslem govern-
ments were joined in a semi-alliance.
They frequently made common cause
against Great Britain. Although France
was a party to the peace of Servres, French
leaders now say that it is unjust to the
Turks and should be revised. The Greeks
insist that it shall be observed; and they
have been fighting for a year to obtain
possession of territory allocated to Greece
by that treaty. In this they have the
support of the British government. But Great
Britain hastens to send an armed force to
help the Greeks when France protests
against such action.

Through the defeat of the Greek armies,
however, it has become apparent that the
Greeks were the only protectors of the
Christian population of Asia Minor. The
Turks have not modified their policy to-
ward Christians in 500 years; they insist
that populations in Moslem territory must
be as loyal to the Moslem faith as to the
civil government. Heresy is to them a
form of treason.

France is reported to favor a restora-
tion to Turkey of all the territory in Eu-
rope occupied by the Turks before the
war, although the French government has
announced no such policy. The attitude
of the French government is difficult to
understand at this distance. No one re-
sponsibly believes that the French would
look with compunction upon the massacre
of Christian populations; yet they have
undoubtedly given at least moral support
to the Turk Nationalists. The Greeks as-
sert that there are scores of French
officers among Kemal's troops.

France is reported to favor a restora-
tion to Turkey of all the territory in Eu-
rope occupied by the Turks before the

of Christian populations; yet they have
undoubtedly given at least moral support
to the Turk Nationalists. The Greeks as-
sert that there are scores of French
officers among Kemal's troops.

That the Allies should be divided in
the face of the present crisis is unfortunate.
A bad policy would be better than no
policy at all. That the Christian populations
in Asia Minor should be slaughtered by
the Moslems is unthinkable; yet, accord-
ing to yesterday's dispatches, that is accu-
mally taking place.

What a disillusionment will come to the
Christians of the world if political animosities
and conflicting spheres of influence shall
permit the Turk to return to the Bosphorus
and re-establish himself in Eastern
Europe! Surely the sacrifices made
during the war are deserving of a nobler
reward. Little by little the victories of
the Moslems are unthinkable; yet, accord-
ing to yesterday's dispatches, that is accu-
mally taking place.

Activities and Interests of Women, in and Outside of Homes.

POLITICS SEEN ONLY AS DUTY

Women Proper Home-making to Speech-making

Wielding Broom Seems Great After Campaign

Seek Only to Aid Men, Not Dominate Them

BY MYRA NYE
Oh, Mrs. O. P. Belmont, it sounds very much as though you were scolding! Attractive women do not scold and you are attractive. That whole, long, four-column, fine-print article in the last number of "Ladies' Home Journal" is a tirade against despotic, man-dominated parties. "The cramped conditions of a misfit social structure where men have forced the women to serve as auxiliaries to the 'men's church' and the Red Cross Society where 'though organized by women for all the high-salaried positions'—"

"Henceforth women are to be dictators," you declare. "In its present condition the world is the sole dictatorship of men. The time has come for women to take over the world muddle that men have created."

"Men have always kept women in subjection. To acknowledge them as equals would do them no good. They have appeared an even partially woman-governed world, fearing a limitation of their own undisputed power."

WOMEN ONLY
"Our party will be a woman's party and a woman's party only. It will have no members, no officers, no employees who are not women."

Thus Mrs. Belmont sings her dirge for the triumph of a woman candidate whom she is president. But that candidate does not work. It is itself a limitation of their own undisputed power."

Women in great numbers are not even keen for political power. They enter the political world but as a duty.

Never was this more clearly shown than in the primary election just passed. They came grudgingly from their vacations to vote. The few at home worked valiantly because they "had to." The club women expressed it for the average woman when she said last week:

"It's over now, girls, we and everyone can take a rest. We're more interested in saving politics, sleeping politics, and no more campaigning. Hurrah!

SEE POLITICS AS DUTY
"The men would be the most surprised beings on earth if they knew how little fun the women had on election day. The politics of a great duty which must be entered into if they are to qualify as women of the better sort, and they fight with all the vim and vigor of the better sort. And they are that it is all over. Now every mother's daughter of us can turn our attention to our homes and communities."

"It is surprising how run down both have gotten during these few weeks. Johnny is on his last shirt and the paper curtains are simply hung with dust and droplets. The curtains need tidying. The fruit, canned last week during a few stolen moments from politics, has begun to spoil already. Oh, yes, everyone is glad that there is a respite from politics before the small world of New York, which will come to bat again. Now home does seem so quiet and good—even darning isn't half bad."

Mrs. Belmont seems to have forgotten that the great majority of women are wives and mothers, the partners of men, not their enemies. They work with men and for men and their efforts are not always rewarded. In this they differ from feminists who work that women shall have advantages greater than men. Such are the members of the women's party.

Diet and Health

By Lulu Hunt Peters, M.D.
Author of "Diet and Health, with Key to the Calories"

ANSWERS TO CORRESPONDENTS

Dear Doctor:
Will you kindly tell me what I could do to stop my legs and feet from itching? Every night when I take off my stockings I could just tear them to pieces. I am nearly 55 years old, and heavy on my feet. I have pains across my loins, or rather the lower part of my back. I have been taking kidney and liver pills, but they seem to do no good. Walking out or if I stop just 15 minutes I have a headache with pain and I stop again. Otherwise I am in splendid health. E. F.

The technical name for the condition is "lumbago," according to Pruitus, from the Latin word meaning to itch. Pruitus is characterized by a sensation of itching and burning, especially in the skin disorders. It may be general or partial. It usually begins by a tickling or crawling or itching sensation.

Your expression that you could "tear them to pieces" is quite characteristic; and while there is nothing to be gained in this beginning this "tearing them to pieces" soon results in the real inflammation of the skin.

The local treatment of the itching, supply a lotion made of two ounces of glycerine, eight drops of water and one-half ounce of carbolic acid. If this does not help, try painting with iodine.

Before applying you might precede this treatment with a bath in very hot water with a little baking soda in it, a teaspoonful to the quart. You must not scratch.

For the local treatment of the itching, supply a lotion made of two ounces of glycerine, eight drops of water and one-half ounce of carbolic acid. If this does not help, try painting with iodine.

By Olive Gray

Up-to-Date!

Fringe, holding its own and usurping alien fields; for example, edging all around, the collar, down the front and up the sides of a dress.

Autumn leaves of velvet, looking as if the wind had blown them upon the brims and over the crowns of the newest velvet hats. More and more do couturier and millinery art take cognizance of seasons in the creation of hats.

The Pageant of Progress and Industrial Exposition open afternoon and evenings will continue through Saturday, Sept. 9.

500 Silk Jersey Petticoats, \$4.50

Of a Quality to Please the Most Discriminating.

That is their principal beauty—the heaviness of the silk jersey which makes these Petticoats.

All are straight-line. Some are finished with fringe-edged scallops. The others, with a six-inch pleated flounce.

Colors are navy, black, tan, brown, taupe, gray, henna, jade, Kelly green, peacock, Belgian and French blue, Mohawk, Tiffin, American beauty, white and flesh.

For Thursday, 500 Silk Petticoats to be priced under the regular price by a very considerable sum—at \$4.50

FOURTH FLOOR

Squirrel Chokers, \$12.75

25 SQUIRREL Chokers will be priced at a low figure to inaugurate the Fur Season at Robinson's.

At \$12.75, they are well worth seeing—and trying the effect with one's new Fall frock. The price will be..... \$12.75

THIRD FLOOR

Gingham Dresses for School Girls

Sizes 6 to 16

on Sale, \$2.95 & \$3.95

THE Anniversary Sale will be able to supply 350 school girls with pretty and practical dresses at prices which will mean a real saving.

Dresses of Gingham in checks and plain colors. In tailored and novelty styles. Some are pique-trimmed. All the dresses in which the school girl will feel well-dressed. Sizes 6 to 16..... \$2.95

Waah Dresses of Gingham. A number have linen collars and cuffs and have touches of hand-embroidery. They are Dresses in which beauty has not been sacrificed for serviceability, although serviceability is an outstanding feature in all of them..... \$3.95

FOURTH FLOOR

This great Sale with extra values on all sides celebrates the removal of Robinson's to Seventh Street seven years ago.

Seventh 7th Street Anniversary Sale

Millinery, \$7.50 New Fall Hats

Were it possible to tell the priced hats with which these compare favorably, both in style and in beauty, it would read like an exaggeration. For these are unusual hats, regardless of their price. Hundreds of women, who are used to paying higher prices will choose one or more hats from among these, not because of the low price, but because of the beauty of the hats.

There are felt hats in black, brown, navy, gray, orchid and beige, trimmed with grosgrain ribbon and quaint little coquettish that anyone would choose for high priced hats. They are very flattering with their smartly rolled brims.

But these are but a few. There are other hats of scratchy felt with quills for trimming; there are banded hats that look as though they had just come from an exclusive maker of tailored hats. And there are others; many others. All pretty enough to be priced very much higher.

Trimmed Hats, in the Anniversary Sale for Thursday at \$7.50.

THIRD FLOOR

Traveling Bags and Suit Cases

Men's Suit Cases of genuine COWHIDE LEATHER, will be on sale. They are good suit cases; have sewed reinforced corners, sewed loops for straps and sewed leather handles. They fasten with heavy side hasp lock and two strong catches and two strong straps. They have plaid linings and each has a slot fold in the lid.

Two colors are offered: mahogany and brown; also two sizes: 24 and 26 inches.

The price, made especially low for the Seventh 7th Street Anniversary Sale is \$14.75

Men's Fitted Suit Cases will be on sale at \$50. These are expensive cases marked down for this sale.

Made of heavy cowhide, leather lined and faced with ebony toilet articles, the fastidiously neat could hardly want anything more substantial in appearance and, in fact, more useful for every kind of traveling.

A limited number of these fitted cases make it necessary to say that this offer is made for Thursday only, and subject to prior sale, after the opening hour, nine o'clock. These Men's Fitted Suit Cases, then..... \$50.00

Women's Traveling Bags, \$12.75 — A beautiful collection of bags, containing both cobra grained and smooth-finished cowhide, the former in three-piece style, the latter five-piece.

All have light, but very strong frames, with leather tightly sewed on, with reinforced corners and all are leather lined and have three pockets. Sale Price..... \$12.75

FIFTH FLOOR

Women's Athletic Suits of Dimity, \$1.35

Women's Athletic Suits of dimity of a quality that will prove very durable, are featured for the Anniversary Sale.

Like many of the other items offered, reading the price and style, does not carry half the conviction that seeing the goods does.

These are Suits with either bodice or fitted shoulders, and come in all sizes.

They are specially priced at..... \$1.35

FOURTH FLOOR

25 Tunics (Overdresses) Net and Georgette, \$15

The Tunics of Georgette Crepe are elaborately decorated with beads. Those of net are covered with sequins.

They are especially pretty for dance frocks. For Thursday, the price will be..... \$15.00

TRIMMING SECTION, FIRST FLOOR

Satin Back Metal Cloth Yard Wide At \$6.75

300 yards of Satin Backed Metal Cloth in silver and gold color combinations will be offered in plain and circ effects and also in embossed styles. It is beautiful Metal Cloth, would ordinarily sell for a far higher price, and is a feature of the great sale at \$6.75 a yard.

FIRST FLOOR

Golfers! Sale!

Golf Balls, lively, long flying, tough covered golf balls, imported from England, will be offered at an almost unbelievably low price. They are high class, first quality balls, for professionals, par players and amateurs, they are good enough for anybody. And the price for the Seventh Street Anniversary Sale, per box of one dozen, just..... \$5

Golf Bags, heavy canvas bags, reinforced with genuine leather, strengthened and protected by bottoms of aluminum; sleek, efficient, sophisticated looking bags—imported from England, by Robinson's, especially for this sale—and priced at..... \$5

FIFTH FLOOR

Wash Goods and Velvets

2000 Yards of Swiss Organza, in a fabric of permanent finish. Robinson's entire stock of colored Swiss Organza of the best quality will be offered at this price, together with a number of white organza. The Sale Price is \$1.50

1250 Yards of White Organza, in all widths, barred effects, and in widths of from 32 to 36 ins., will be on sale at \$1.50

1000 Yards of Scotch and French Crepe, both striped and barred effects, in white and colored grounds with white stripes, one of the features in the sale for Thursday. These textiles are very much endorsed and are attractive not only for their good quality, but for the decorative patterns which are included in the offering.

32 inches wide; on sale at a yard..... AND—

5000 Yards of Devoré Crepe, Cloth in new patterns and in tub feet, first quality fabrics, as much as \$1.50 that it is necessary to attach the words to dealers.

The Sale Price is a yard..... AND STILL FURTHER—Thousands of Yards of Lame Crepe, including checked, barred, colored and patterned and all solid colors, will be offered at one sale price, a yard.....

GREEN KAVANAGH WINS QUALIFYING ROUND IN DEL MONTE TOURNEY

Former Trojan Stars to Scintillate Once More

ALUMNI IN FIRST GAME

Gloomy Gus Returns to U.S.C. and Predicts Bad Year; Lineups for Game Announced

BY JOHN PROCTOR

When Coach Gus Henderson of the University of Southern California arrived at the training quarters yesterday from a vacation at Catalina and other nifty points frequented by his proteges it was found that deep "gloom" at once occupied the same quarters.

After looking over the material which has signified its intention of returning to the fold, Gus heaved a great sigh and remarked that the teams were going to the dogs. He also remarked by way of enlightenment that he had just lost five ends, three to Harvard, one to Penn, and one to the University of the Pacific, who took a narrow victory over the Trojans in their annual football game.

He also said that Jimmy Smith, who was the coach of the first team, had been unable to handle the coaching of this team of all stars. He is to be the freshman coach this year.

GLOOMIER THAN EVER

Gloomy is gloomier than ever, and prophesies that dire things are in store for all of the men who enter the alumni game. He has said all along to take out life insurance and to prepare to meet an early death.

He states with authority that there will be no game this year.

He also said that the game will be a smash hit.

He also said that the game will be a smash hit.

He also said that the game will be a smash hit.

He also said that the game will be a smash hit.
